20% of fees are used by TAAF to help young graduates qualified in agriculture, forestry, economic, social and environmental sciences to gain practical experience of international rural development.

Membership Application Procedure

Application can be made online at <http://www.taa.org.uk/membership.asp?menuid=25> or an application downloaded and sent to the Membership Secretary. membership_secretary@taa.org.uk

Subscriptions can be paid preferably by standing order, but also by bank transfer, cheque or on-line.

All membership applications are subject to approval by the TAA Executive Committee or its nominee.

Benefits

All members receive the Association's Journal, *Agriculture for Development*, either printed or online, together with access to all TAA services, activities, events, website resources, meetings and working groups.

AGRICULTURE FOR DEVELOPMENT

A network of individuals, business and corporate bodies capable of responding to needs in developing countries for research, development, education and skills in support of equitable and sustainable agriculture and natural resources management.

www.taa.org.uk

“Advancing education, research and practice in agriculture for rural livelihoods and sustainable development.”

Activities and benefits

- **Networking and information dissemination:** including job vacancies, events, news alerts, technical publications, lectures, regional groups.
- **Communications:** *Agriculture for Development Journal* (three publications per year), website and links, e-mail circulars.
- **Promotion and utilisation of expertise:** CV directory, TechTalk Advisers, British Expertise.
- **Professional development:** Tropical Agriculture Award Fund providing grants to young people to gain practical experience, Honours system.
- **Evidence and advice for policy:** All Party Parliamentary Food and Agriculture membership.
- **Specialist working groups:** Land husbandry, agribusiness, conservation, UK Forum for Agricultural Research for Development.

Aims

- Provide opportunities for debate, information exchange among stakeholders.
- Serve as a resource for relevant information and expertise on agriculture and rural development.
- Foster and strengthen services in agriculture for development and natural resources management.
- Facilitate interaction and development with respect to education and skills development for sustainable agriculture and natural resource management.
- Network and communicate. Represent the views of UK organisations and professionals involved in agriculture for development.
- Develop and build consensus in specific areas of interest including land husbandry, agribusiness, agricultural research and environmental conservation.
